

CALENDULA OIL BP
Material Safety Data Sheet

Product Name

Calendula Oil

Supplier

Just a Soap
South East Lodge
Rede Road
Whepstead
Bury St Edmunds
IP29 4ST
01284 735043

Composition/Ingredients Information

An extract of the flowers of *Calendula officinalis* L.(Fam. Asteraceae) infused in sunflower oil.

CAS no: n/a

FEMA: 2658

EINECS: n/a

Additives: none

Status: natural

Application: Aromatherapy, skin care etc.

INCI: Helianthus annuus (Sunflower) Seed Oil, Calendula officinalis Flower Extract.

Hazards Identification

Concentrated product. Do not ingest. Observe good housekeeping procedures.

At First Aid Measures

Eye Contact: Flush immediately with water for at least 15 minutes. Consult a doctor if symptoms persists.

Skin Contact: Remove contaminated clothes. Wash thoroughly with mild soap and water. If irritation persists, seek medical advice.

Ingestion: Rinse mouth out with water. Seek medical help immediately.

Fire Fighting Measures

General: not classified as inflammable.

Extinguishers: Foam CO², dry chemical powder. DO NOT use direct water jet on burning material.

Special measures: avoid vapour inhalation. Keep away from sources of ignition. Do not smoke. Wear positive pressure self-contained breathing apparatus and protective clothing.

Extinguishing procedures: closed containers may build up pressure when exposed to heat and should be cooled with water spray.

Accidental Release Measures

Personal precautions: avoid inhalation and direct contact with skin and eyes.

Use individual protective equipment (safety glasses, waterproof boots, suitable protective clothing) in case of major spillages.

CALENDULA OIL BP
Material Safety Data Sheet

Environment precautions: Keep away from drains, soils, surface and ground waters.

Cleaning up methods for spillages: Remove all potential ignition sources. Contain spilled material. Cover with an inert or non-combustible inorganic absorbent material, sweep up and remove to an approved disposal container. Observe state, federal and local disposal regulations.

Handling & Storage

Apply good manufacturing practice and industrial hygiene practices, ensuring proper ventilation. Observe good personal hygiene, and do not eat, drink or smoke whilst handling.

Storage conditions: Store in tightly closed original container, in a cool, dry and ventilated area away from heat sources and protected from light. Keep air contact to a minimum.

Exposure Controls/Personal Protection

Respiratory protection: avoid breathing product vapour. Apply local ventilation where possible.

Ventilation: ensure good ventilation of working area.

Hand protection: avoid all skin contact. Use chemically resistant gloves if required.

Eye protection: use safety glasses.

Work/hygiene practices: wash hands with soap and water after handling.

Physical & Chemical Properties

Colour: yellow to orange.

Appearance: clear, viscous liquid.

Odour: no off tains.

Flash Point °C: >100

Specific gravity @ 20 °C: 0.905-0.923

Refractive index @ 20 °C: 1.462-1.510

Stability & Reactivity

Reactivity: it presents no significant reactivity hazards, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidising agents.

Decomposition: liable to cause smoke and acrid fumes during combustion: carbon monoxide, carbon dioxide and other non-identified organic compounds may be formed..

Toxicological Information

Not considered a hazardous substance.

Ecological Information

Biodegradability: data not available.

Precautions: prevent surface contamination of soil, ground and surface water.
